PUBLIC NOTICE

Data Cleansing Process

The Chief Albert Luthuli Local Municipality is in the process of updating its records of all the customers, and property information across its Municipal boundary, this will include all properties, occupied or not occupied and serviced by the Chief Albert Luthuli Local Municipality. This process is aimed at detecting and preventing duplicate accounts from the Valuation Roll and Debtors Book. The process is further necessitated by numerous challenges experienced by the Municipality when trying to implement its Credit Control and Debt Collection Policies. The exercise will commence on **01 September 2021** and it will be implemented by an independent third party.

The public is therefore accordingly notified about the field work that will be taking place from the 01st of September 2021 and are further urged to avail their premises to the said inspectors who will be carrying the necessary identification. Notwithstanding, it is envisaged that only a fraction of the households will be visited in areas where discrepancies are identified.

For more information on the project, please contact Ms. NF Malaza (p MalazaNF@albertluthuli.gov.za) or Mr. DM Ginda (GindaDM@albertluthuli.gov.za). Alternatively, the public can contact their local councillor.

MR M.S. DLAMINI
MUNICIPAL MANAGER
19 August 2021
